DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7, drawn to a method for encoding or decoding a block of quantum data by removing trailing eigenstates, classified in class 708, subclass 200.
 - II. Claims 8-25, drawn to a method for compressing a block of quantum data by projecting a block quantum state, classified in class 708, subclass 203.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions of Group I and Group II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions, Group I of claims 1-7 is drawn to a method for encoding/decoding by removing trailing eigenstates and Group II of claims 8-25 is drawn to a method for compressing by projecting quantum state into typical subspace.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2124

4. A telephone call was made to Frederick W. Gibb on 08/16/2004 to request an oral election to the above restriction requirement, but did not result in an election being made because the inventor(s) required an written restriction prior making decision.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chat C. Do whose telephone number is (703) 305-5655. The examiner can normally be reached on M => F from 7:00 AM to 4:30 PM.
